3rd: Martin/Benjamin; 4th: Clifford/Martin

A Superintendent Message

A huge thank you to Dr. Dennon Davis, with the assistance of the grounds crew, for replacing the culvert by #6 green!

We are well into fertilization of our fairways and there is a noticeable improvement to the turf quality. Herbicides are being applied to address weeds.

The bunkers have been sprayed to curb weed growth, which will continue, along with the rearrangement and addition of sand.

Although the course has seen drastic improvement, plans are in place for continued enhancement.

JULY CALENDAR OF EVENTS
