

FCCC inFOREmation

Golf is the closest game to the game we call life. You get bad breaks from good shots; you get good breaks from bad shots - but you have to play the ball where it lies.

FCCC IMPROVEMENTS

We would like to take a moment to recognize the FCCC Board for improvements to the club house and the golf course the past five months.

Banquet room renovation has created a state of the art meeting facility and a great environment for social events. New window coverings, installed this month, have completed this project.

Be sure to take a look at the east deck. The old deck has been removed and the new one will be complete this month.

Along with these changes, you will see a new roof on the club house, pool house, scoreboard, gazebo and gardeners' shed. This project should be complete by September 1st.

Some improvements that are not always visible include systematic chemical and fertilizer applications. Additional funds have allowed our Superintendent to lead his crew in the beautification of the fairways and greens. Long term benefits will be evident as the year progresses.

SINCERE APPRECIATION

The 2016 Ladies' Coal Miner committee had another successful tournament this year. The committee, Vicki Rowland, Peggy Altmix, Becky Benjamin and Jeannie Martin, made the gracious decision to make a significant contribution toward the new ground equipment. Their generosity is greatly appreciated and will contribute toward golf course improvements in the coming year. Thank you ladies!

Pool Schedule

Beginning August 15, 2016 through Labor Day
Pool will be open on week-ends only.

August 20-21 10:00 AM – 6:00 PM
August 27-28 10:00 AM – 6:00 PM
September 3-5 10:00 AM – 6:00 PM

See you in 2017!

A message from our Superintendent

We recently started applying herbicides to select fairways and roughs to control a very evasive weed (Green Kyllinga) that invaded our golf course over an extended period of time. For those who have played recently, #9 and #17 have been sprayed. This application creates a temporary undesirable appearance. However, we are observing a quick recovery as Zoyia spreads. Due to the side effects, we do not plan to spray the entire golf course this year.

Initiating this ongoing chemical program will improve the turf quality of the golf course. Look forward to continued improvements.
